IGIMS AT GLANCE

Indira Gandhi Institute of Medical Sciences, Sheikhpura, Patna was established as an institute in the state of Bihar with a view to develop clinical services in super specialties of the highest standard, a system, a system of supportive supervision and continued education for the medical and health functionaries and to promote service, research and education in the field of community medicine and allied subjects.

th

IGIMS was established on 19 November 1983, as an autonomous organization on the pattern of All India Institute of Medical Sciences, New Delhi. The objective was to provide super specialty medical facilities in Bihar. On

th
27 January 1983 Cabinet approved the completion of this massive project in 4 phases within a span of six(6) years. According to the decision of State Government, 130.20 Acres of land was transferred to IGIMS. It was proposed that the hospital will be completed by 1990 with a capacity to house 1000 beds. The estimated cost was 110 crores rupees which was later revised to 133 crores. IGIMS Medical College was setup in 2011 to impart undergraduate teaching with 100 student's admission in each batch.

MISSION

Indira Gandhi Institute of Medical Sciences, Sheikhpura, Patna was setup with an objective to provide the best Medicare facilities to the peoples in and around Bihar. The Hospital aims to be the state of the art in this region. So, far, it has been successful in achieving part of its goal and IGIMS is acting hard to achieve its goals for broader interest of masses.

Objectives

- To establish an apex centre for delivery of health and medical care of highest standard
- To train specialists of high order in different branches of medical services
- To improve the health services in the State through appropriate linkage and referral system with Medical Colleges and District and Sub divisional hospitals.
- To develop the continued education programme and award degree and certificates and Post Graduate degrees
- To develop clinical research centers for conducting investigation on the problems of human health and diseases peculiar to and prevent in this part of the country.
- To develop Community Health Research Centre to study and find out solutions to the problems of health of the community with particular emphasis on reproductive biology and population control.
- To develop research and training in basic sciences relevant to the problems and needs of the Community.
- Statistics of All India Institute of Medical Sciences (AIIMS), New Delhi and Post Graduate Institute of Medical Education and Research (PGIMER), Chandigarh show large number of patients from Bihar, suffering from Heart Diseases, Neurology problems, Cancer, Renal Dialysis, Ophthalmic problems etc. who go to AIIMS/PGIMER. Getting treatment at AIIMS/ PGIMER puts heavy economical burden on them apart from the difficulty of travelling to a distant location and puts excessive loads on those institutions.
- Looking into the problem, State Government, in consultation with experts from various parts of country, decided to setup an institute of AIIMS standard so that the patients from Bihar, Sikkim, Nepal, and Bhutan etc may get best Medicare at the lowest possible expense. To achieve these objectives the institute was established and named after the Former Prime Minister of India, Smt. Indira Gandhi.
