IGIMS - PAST, PRESENT & FUTURE

Bihar has been one of the most populous and economically deprived states in India. In the late 1970's there were just six government medical college hospitals functioning in the state, catering to the large patient load. Despite their services, several patients had to travel long distances, to other states, to avail super specialized services. Realizing the need of the people, the state government proposed the foundation of the first super- speciality hospital of the state. Indira Gandhi Institute of Medical Sciences came into existence as an autonomous organization on November 19, 1983. The preamble of the IGIMS Act 1984 reads as follows.

" To establish an Institute in the State of Bihar with view to develop clinical services in super specialties of the highest standard, a system of supportive supervision and continued education for the medical and health functionaries and to promote services, research and education in the field of Community Medicine and allied subjects."

MISSION

Indira Gandhi Institute of Medical Sciences, Sheikhpura, Patna was setup with an objective to provide the best Medicare facilities to the peoples in and around Bihar. The Hospital aims to be the state of the art in this region. So, far, it has been successful in achieving part of its goal and IGIMS is acting hard to achieve its goals for broader interest of masses.

INITIAL OBJECTIVES:

- To establish an apex centre for delivery of health and medical care of highest standard
- To train specialists of high order in different branches of medical services.
- To improve the health services in the State through appropriate linkages and referral system with Medical College and District and Sub divisional hospitals.
- To develop the continued education programme and award degrees, diplomas and certificates and post graduate degrees.
- To develop clinical research centre for conducting investigation on the problems of human health and diseases peculiar to and prevalent in this part to the country.
- To develop Community Health Research Centre to study and find out solutions to the problems of health of community with particular emphasis on reproductive biology and population control.
- To develop research and training in basic services relevant to the problems and needs of the community.
- To establish a medical college for imparting education of undergraduate, postgraduate, post doctoral and diploma course in medical stream (Indira Gandhi Institute of Medical Sciences. (Amendment Act, 2007).

The institute was inaugurated by former President of India Late Gyani Zail Singh, in the presence of the then Chief Minister Dr. Jagannath Mishra and Health Minister Shri L.P. Shahi. The visionary Dr. (Prof.) B.N. Tondon of AIIMS, New Delhi, was the first director of the institute and the hospital started functioning with four super-speciality departments of Gastroenterology, Gastro-intestinal surgery, Nephrology and Urology, which functioned with the help of the allied departments of Pathology, Microbiology, Biochemistry, Radiology and Community Medicine. Several senior faculties like Dr. (Prof.) M.P.Sharma, Dr. Rakesh Tandon, Dr. Y.K. Joshi, besides others of AIIMS New Delhi, visited IGIMS regularly for providing guidance, support and training to our young doctors and facilitated in technology transfer.

IGIMS has gradually developed into one of the most coveted and premier institute of the state. With all basic and super speciality departments fully functioning, we cater to approximately 10 crores population. The institute serves not only the residents of Bihar, but also large stretches of north east India, comprising Sikkim, Nepal, Bhutan, Bangladesh etc.

IGIMS also provides its services to the rural population of Maner PHC, approximately 40 kilometres from Patna, with a population of nearly 10 lakhs through the department of Community Medicine as Rural Development Centre.

IGIMS has comprehensive facilities for teaching, research and patient care. Super-speciality degrees like D.M., Mch and DNB courses in the departments of Gastroenterology, Urology, Neurology, Thoracic Surgery, Ophthalmology and Regional Cancer Centre were started.

The expansion of the institute prompted the inception of a medical college. With constant efforts of the then Director and vision of the Chief Minister Shri Nitish Kumar, this dream was realized in 2011 when the first batch of MBBS students joined the institute.

As provided in the Act, IGIMS conducts teaching programmes in medical and paramedical courses both at under graduate and post graduate levels and awards its own degrees. IGIMS also runs a college of nursing and trains students in B. Sc. Nursing degrees. Teaching and researches are conducted in several disciplines.

The Joining of Prof. N.R. Biswas as the Director in 2014 electrified the whole environment and the institute achieved newer heights under his visionary leadership. To name a few feathers added to the cap of the institute lately-

- State of the art advanced cardiac centre with two ultramodern Cath Lab and all other amenities is started functioning.
- Fully functional Cardio Thoracic and Vascular Surgery (CTVS) department is carrying out open heart surgeries aside other cardiac Thoracic and Vascular Surgery on regular basis.
- Organ Transplant services have been initiated in the institute with 154 successful cornea transplants and 34 renal transplants. Training for heart and liver transplants are underway and expected to start shortly.

- Cardiac Interventions like Angioplasty and Angiography and cardiothoracic surgeries have started.
- The up-gradation of the Regional Institute of Ophthalmology, IGIMS, on the lines of Dr. R.P. Centre for Ophthalmic Sciences, AIIMS, New Delhi has been initiated with funds allocated for the same.
- The Regional Cancer Centre is upgraded to State Cancer Institute. The departments of Radiation Oncology, Medical Oncology, Surgical Oncology and Gynaecological Oncology are running full fledged and catering to the cancer patients of the region. Bone marrow transplant for cancer treatment has also started and stem cell therapy is underway.
- A multidisciplinary research unit (MRU) with funding from Department of Health Research (DHR), Ministry of Health and Family Welfare, Government of India, has been started. MRU will help the faculty in pursuing clinical and basic research work even at the molecular level.
- As part of a new initiative by the Government of India, a "Skill Development Laboratory" for training of health personnel has been set up.
- An MOU has been signed with the railway ministry for training railway doctors at IGIMS.
- The department of community medicine has started an Urban Health Centre and, is catering to the urban economically stricken population and the youth of the society, with special "Yuva Clinic". Besides, Psychiatry and Dermatology departments have recently been made functional.
- Construction of A Storey Dharmshala is going to be completed soon.

ACADEMIC AND RESEARCH ACTIVITIES

When IGIMS had already flourished as a tertiary referral super specialty hospital of the state, the Honourable Chief Minister of Bihar, Mr. Nitish Kumar envisaged that the institute must have its own Medical College to beget competent medical graduates. To materialize his vision, the process started forthwith. Different pre- clinical, para-clinical and clinical departments were established sequentially as per MCI requirements and started functioning. Finally IGIMS Medical College came into existence in 2011. In the same year, the Medical College got LOP from MCI for 100 annual intake. Meanwhile all the departments progressed and prospered further. Every department became strengthened with a team of highly qualified and dedicated faculty. Apart from imparting education and training to undergraduate medical students in an attempt to reinforce their cognitive, psychomotor and affective domains, constant endeavour was made to carry out quality research in order to cope with the rapid advancements in medical science and technology. The medical college got recognition from MCI in 2016.

Aside MBBS course, post graduate courses started initially in Biochemistry, Microbiology and Anaesthesiology and subsequently in Physiology, Pharmacology, FMT, Anatomy and Pathology. Three postdoctoral courses viz MCh in Urology and DM in Medical Gastroenterology and Neurology are also

running here. DNB courses are also running in thoracic surgery and ophthalmology departments.

The medical college is aware of the modern day needs in healthcare and is striving relentlessly to reach new heights in future.

Of late, attempts are being made to materialize the concept of medical e-governance and digital library (Library at home).

NURSING & PARAMEDICAL DEGREE AND DIPLOMA COURSES RUNNING AT THIS INSTITUTE :-

B.Sc. (Nursing), Post Basic Nursing and General Nursing & Midwifery (GNM) courses are running in the College of Nursing, IGIMS.

Three Paramedical degree and eight Paramedical diploma courses are also running in this institute.

FUTURE ASPIRATIONS AND PLANS

IGIMS strives to meet the health needs of all who live in our service area with quality, compassionate care. While our commitment to provide high quality health care remains unchanged, continuing national and state reform efforts will challenge us to develop new ways of delivering cost- effective care to our patients in the future.

Five Year development plans

2018-2023

- Up-gradation of "Regional Institute of Ophthalmology" with a separate multi-storey building equipped with all modern and hi-tech equipments on the pattern of "Dr. R.P. Centre for Ophthalmic Sciences, AIIMS, New Delhi".
- Establishment of 'Centre for Cardio- Neuro Sciences' in a separate building.
- Establishment of 'School of Public Health'
- Establishment of 'Paediatrics Medicine & Neonatology' with 'Paediatric Emergency' in a separate building.
- Establishment of 'Centre for Laboratory Medicine'
- Establishment of 'Centre for Digestive & Liver Diseases'
- Establishment of 'Centre for Kidney Diseases & Renal Transplant'
- Establishment of separate building for Advance ENT Centre.
- State-of-the-art- Trauma Centre.
- Construction of new 500 bedded & 1200 bedded Hospital buildings.
- Construction of new Senior Residents Hostel, Junior Residents Hostel and Inter Hostel for Boys and Girls.
- Construction of Student Recreation Centre for Boys & Girls.
- Establishment of Maternal & Child Healthcare Centre.
- Establishment of Molecular Medicine Department.
