

April 2023 nights coolest in 5 yrs, days wettest after '20

IMD director-general Mr. Tripti Mohapatra told TOI, "Multiple weather systems, including western disturbances, cyclonic circulation and wind discontinuity have been affecting several parts of the country with simultaneous rainfall activity and thunderstorms on many days this summer. These activities caused the summer to be cooler than usual. Even if we have seen a general rising trend in temperatures in the last few years, there could be some years when one sees a falling trend."

Dr. Rajeev said one reason could be an evolving El Niño. "During years of cooling in Niño, we see more western disturbances moving towards southern latitudes during the pre-monsoon period, causing higher instances of rain and thunderstorms."

On Thursday, parts of north India, including Delhi, Jaipur, Patna and Lucknow, experienced intense rain due to an excess of moisture, lack of wind, and low light temperatures in May, the warmest month of the year.

The average minimum temperature in India this April was 22.06°C, as against 22.57°C in 2022, 22.32°C in 2021, 22.36°C in 2020, 22.70°C in 2019 and 22.57°C in 2018.

Should you opt for higher EPS payout?

Higher Pension Looks Attractive But Will Require Payment To The Pension Pool Out Of The Provident Fund Corpus Of The Subscriber

Table with columns: Joining Date, EPS Contribution (Annual, Monthly), and Total EPS Contribution. Rows include dates from Nov 2001 to Sept 2014.

Subscribers to the Employees' Provident Fund (EPF) can get a higher pension amount if they opt for a target to get a higher pension. Contributions to the EPF scheme come from the employer's contribution to the provident fund, though linked to the basic pay contributions to the EPS were capped as follows:

Table titled 'Boomers Who Are Retiring Soon' comparing 'Existing system' and 'Higher pension' for monthly EPS, annuity, and total pension.

Dr. Rajeev said one reason could be an evolving El Niño. "During years of cooling in Niño, we see more western disturbances moving towards southern latitudes during the pre-monsoon period, causing higher instances of rain and thunderstorms."

Gen X Subscribers Aged 35-40 Yrs
Getting a higher EPS is even more compelling for those in the 35-40 age group. They will have to deposit a large amount, though their monthly contribution will rise.

Table titled 'Gen X Subscribers Aged 35-40 Yrs' showing basic salary, salary now, required contribution, and actual contribution for different joining dates.

Persons opting for higher pension will also have to contribute roughly Rs 6,668 to the EPS every month till they retire in March 2025. The EPS opted will be linked to the average salary in the past 60 months. In this case the average monthly salary in the last five years from 2018 to 2023 will be Rs 1.82 lakh.

By depositing Rs 12.15 lakh in EPS and contributing around Rs 7,000 more to EPS every month for next 12 years, the subscriber gets Rs 64,143 more pension per month. The monthly contribution will also increase by 8.5% per year as income goes up.

More security forces were kept on standby

Left sectors rounded, the state government clamped curfew till 10 districts: Imphal West, Imphal East, Thoubal, Bishnupur, Kohima, Kangpokpi, Tuensang, Chandel, Charaibund, Phakal and Jiribam.

Dujana had threatened a key witness in murder case: Cops

Dujana had killed his husband in 2012. On April 19, when I along with a gunman and my brother-in-law, was returning from court in Gautam Budh Nagar, our vehicle was overtaken by Dujana's gang. I thought he was in Ayodhya jail but he was on bail. He threatened me to stop testifying in court. For 11 years - there were over 230 hearings days - somehow the accused managed to keep the case. My life is in danger."

We will continue with our fight, say wrestlers

The wrestlers, however, stuck to their charge against the cops and offered to return their medals won at national and international levels, along with various government honours, to protest against the police's behaviour.
