DAY TODAY BY PETER VIDAL

ARIES (Mar 21 - Apr 20) In common with quite a number of other signs, you should view this as an ideal day for thought and communication. You're likely to be seen sitting on or keeping to yourself should you be revealed to the world. LIBRA (Sep 24 - Oct 23) Travel looms. That's not to say that you'll not be going anywhere at the moment, but if you can plan a holiday, you'll be doing yourself a favour and setting yourself a target to work towards. And you'll still get your rest. TAURUS (Apr 21 - May 21) Check out your financial situation. It's likely that your choices might be greater than you think, both in terms of what you can do to maximise your earnings, and what can be done to pick up a bargain or two. One thing is certain: Will it come? It depends on you. GEMINI (May 22 - June 21) By the time you wake up this morning the Moon should have embarked on a new and beneficial cycle. Above all, try to get a fix on events at home, and insist that your wishes be obeyed. Partners who think that they can get away with anything. CANCER (June 22 - July 23) Over the next few days you should aim to spend as much time as possible by yourself. This is not just to be alone, but to give yourself the space for your imagination to drift off and come back with the answer to a current dilemma. As work looms after all those little facts, or you'll miss a vital detail. LEO (July 24 - Aug 23) You could be increasingly troubled by vague fears and imagined spectres. Some may have a grounding in reality, but will be largely shaped by your imagination. Such worries will be dealt with all the more easily if you admit that they are not real and bring them into the open. VIRGO (Aug 24 - Sep 23) Choices, choices, choices. Once fired you get of having to make up your mind, and then make up other people's minds for them as well. Unfortunately, it does seem inevitable that you must now decide between two completely different ways of putting your ambitious aims into effect. AQUARIUS (Jan 21 - Feb 19) The best approach to professional and personal life is to break with routine and insist that you take precedence over traditional ways of doing things. But will other people listen? PISCES (Feb 20 - Mar 20) Home is often the best place where you can indulge your imagination. This is how it should be today, although domestic life is the company alternate with bursts of manic socialising. Partners will have the advantage, by the way, so do what you've got to do.
